

NICK'S ORIGINAL ACHIEVEMENTS!

HELLO FRIEND!

Thanks for downloading my datapack!

This was just something I felt like doing one day. Thankfully, after some time, it came through in a functional manner. Now I aim to support it for as long as possible.

I've recreated each of the original pre-1.12 Java achievements (except Taking Inventory) and put them together here, with some added quality of life improvements as well such as:

- *Librarian* requires *Enchanter*
- *The Beginning?* is rewarded to all players near a newly spawned Wither
- *The End.* Is rewarded to all players on the main End island

If you have any problems or critiques, comment or send me a tweet!

Have fun!

Nick
